r a

<b>Temperature Operating</b>	70 mph
<b>Mounting</b>	-30° to 70°C
<b>Feed Line</b>	Included Tripod
	(2) cable assemblies 12.5 ft (3.8 m)

The L3Harris RF-3080 antenna provides a compact, rugged SATCOM performance in a small, lightweight package. The compact, foldable design, in a partially open package, allows rapid deployment of a directional high-gain radiator with a frequency range of 2-12 GHz. The RF-3080-AT001 includes a feed system with reflector, two sets of directors, tripod, two coaxial cable assemblies and a carry bag. The antenna's unique foldable design allows it to fit into an 18.5 x 6 x 6 inch package, making it easy to stow and transport.
